FROM: Dr. Steven Isoye DATE: June 23, 2016 RE: Pool Option 5B

Background and Information

At the Tuesday, June 13, 2016 Special Board Meeting, the Board passed the following motion:

Move to include consideration of option 5b during the community engagement meetings and to develop a LTF concept that incorporates option 5b, subject to the prior approval of the board.

There is a short turnaround time in order to get information to the Board for the Thursday Regular Board meeting. In preparation for the decision to be made by the Board, the administration and Legat Architects will bring forward a conceptual design for the underground pool concept. Legat will reach out to Frank Heitzman and Garret Eakin as they prepare the design. The design will be guided by the Program Verification report from September 24, 2015, except that the pool will be a long stretch pool. Based on discussions after the Board rescinded the resolution for non-referendum bonds, the discussion of the pool size has changed to be a pool smaller in size than a 50 meter pool. The Long Term Facility Plan incorporating the underground pool option is in the process of being developed. This will need to be accepted by the Board prior to the design going to the community engagement meetings in July.

Next step

Move to approve pool concept 5B as presented for inclusion in the community engagement meetings in July.
